These are *not* in the on-line plant store. If you would like to include them in an order, please contact us to check that what you want is still available. There will be the usual total minimum order of £30 and a delivery charge (£9 for the UK) for the whole order. Payment can be made through the store. You click on the Category "Gift cards and tokens" on the left-hand side of the store home page, then on "Xtra payment agreed with Kevock Garden". Enter the appropriate number of items, i.e. one for each £1 you need to pay for the plants, and then "Add to cart". Add any other plants you want to include in your order and check out in the usual way. The delivery charge will be added when you check out, so don't include that in the Xtra payment.
